Subject: This week's FISO colloquium (August 27): "Commercial Space"
Date: Mon, 25 Aug 2014 16:52:39 +0000
From: Thronson, Harley A. (GSFC-6600) <harley.a.thronson@nasa.gov>

Folks,
This week's Future In-Space Operations (FISO) telecon colloquium will be Wednesday, August 27, when we will host Garrett Reisman (SpaceX), who will speak on “Commercial Space."

As always, the colloquium will be at 3pm ET and will use our regular FISO telecon number.

Garrett Reisman ; Garrett.Reisman@spacex.com

Garrett Reisman is responsible for working with NASA to prepare SpaceX’s Falcon 9 rocket and Dragon spacecraft to carry astronauts. He was the SpaceX project manager for CCDev2 – a $75 Million partnership with NASA to mature the Dragon Spacecraft launch abort system and crew accommodations. Reisman is now the SpaceX project manager for CCiCap – a $440 Million partnership with NASA to complete the design of the Dragon-Falcon 9 crew vehicle, perform hardware testing, ensure astronaut safety and pave the way for NASA certification of the vehicle. Reisman came to SpaceX from NASA where he served as an astronaut starting in 1998. He has flown on two space shuttle missions, during which, he logged over 3 months in space including over 21 hours of extravehicular activity (EVA) in 3 spacewalks. Dr. Reisman served with both the Expedition-16 and the Expedition-17 crews as a Flight Engineer aboard the International Space Station. Reisman holds a B.S. in Economics and a B.S. in Mechanical Engineering and Applied Mechanics from the University of Pennsylvania, an M.S. in Mechanical Engineering from the California Institute of Technology, and a Ph.D. in Mechanical Engineering from the California Institute of Technology. He is an FAA Certified Flight Instructor.
